I have a BC-221T in a BG-81T bag looking for a good home.  
The canvas bag is in good, not perfect, shape but the BC-221 has some slight corrosion on various metallic parts from sitting in unheated outbuildings for 30+ years. The oscillator works on both frequency ranges and I checked that the dial is correct at 125 kc (low end of low range) and 2 Mc (low end of high range) on my HP frequency counter. Crystal osc doesn't work but crystal is present.

Please contact me off list if interested. Can email pics.

thanks  
Charles

>Howard Mills for 348's.

Thanks to all who responded. I really mean that! At the suggestion of several, I directly contacted Howard and because he is only a couple of hours away, he said he would be glad to put it in the queue. A couple of you suggested that I do it myself. I appreciate the confidence, but BA time around here is literally time that I steal from other priorities. While I would like the experience, I have an R390 in the rack that hasn't been powered up in almost a year. It seems like that is a sign, that I might need help! Again, thanks for all suggestions

> 2nd list. I'm selling a few boatanchor duplicates or radio's that I'm =  
just now using any more.

>=20

> James Millen Antenna Tuner model 92200. Good condition, some cabinet =  
scratches, nice front panel, original and clean knobs, no modifications =  
that I know of. The opportunity came up and I bought it, but I never =  
used it. Uses heavy ceramic switches, large air variable capacitors, =  
silver plated tapped coil, and copper chassis, handles full HF power =  
limits. I may have a manual copy for that. \$275 plus shipping and =  
insurance

>=20

> Gorgeous Knightkit T-150 Transmitter and Matching R-100 Receiver. =  
Both Transmitter and Receiver are in excellant condition, original and =  
shiny knobs, clean and shiny front panels, good cabinets, no =  
modifications that I am aware of. Extremely clean. I'll also include =  
an additional T-150 parts unit. I may have original manuals for one or =  
both that I will include if I can find them. I never used the =  
transmitter. I listened to 20 meter and 40 meter CW and SSB on the =  
receiver a few years ago and it sounded surprisingly good for a lower =  
end receiver like the R100. They are sold as-is. \$325 plus shipping =  
and insurance.

>=20

> Lafayette Explor-Aire MK V, short wave receiver. I think this was the =  
last of the long running Explor-aire line. Very good condition, I have =  
not used it in 8 or 9 years. I think I bought this from Don Merz. Don, =  
are you suffering from Sellers remorse? Here's your chance to get it =  
back :))))))))) (this is good natured teasing). Anyway, good =  
condition, original knobs, no modifications, clean, shiny: \$40 plus =  
shipping and insurance.

>=20

> Knightkit P2 SWR bridge. This is the matching SWR bridge for the =  
Knight T-60 series of equipment. I have two so I'm selling one. Good =  
condition, original knobs, no modifications that I know of. Its sort of =  
obligatory to have a P2 with your T-60 and R55A station :) \$15 plus =  
shipping and insurance

>=20

> Heathkit GR-64 shortwave receiver, very good condition, very clean, no =  
modifications that I know of. I never power it up. The only =  
distraction that I saw was one of the small knobs has a crack in it, =

likely due to overtightening of the set screw. Knob is not broken, just =  
cracked near the back of the body. I believe a little glue would repair =  
it and be invisible.: \$25 plus shipping and insurance.

>=20

>=20

> Heathkit RF-1 signal generator, good condition. \$20 plus shipping and =  
insurance

>=20

>=20

> Vintage solid state qrp: Ten Tec Century 21 Model 570 cw transceiver =  
with analog display. 10-80 meters with internal 120 vac power supply. =  
Good condition, clean, no manual, no modifications that I know of. =  
Last used 4 years ago. It will be sold as-is but I will check it out =  
prior to shipping to make sure it receives and puts out power. I think =  
Ten Tec did an outstanding job with the Model 570 and turned out a well =  
featured and good performing transceiver for a reasonable price! While =  
I ran this at the qrp full gallon (5 watts output), I think it went up =  
to 35 watts output for non qrp contacts. I had a ball with this =  
transceiver and its alot of fun to use. \$140 plus shipping and =  
insurance.

>=20

> Ten Tec Century 21 cw transceiver with DIGITAL display. 10-80 meters =  
with internal 120 vac power supply. Very good condition, very clean, =  
and includes manual. No modifications that I know of. Last used 4 =  
years ago. It will be sold as-is but I will check it out prior to =  
shipping to make sure it receives and puts out power. I also had alot =  
of fun using this transceiver on the air. Not too many of the digital =  
version out there. \$200 plus shipping and insurance.

>=20

> Hallicrafters S40-B receiver. Fair condition, original knobs, =  
scratches on the case and front panel, no modifications that I am aware =  
of. I never powered it up so sold as-is. \$60 I've given someone first =  
dibbs. Let me know if you want 2nd dibbs.>=20

>=20

often. I used it last maybe 5 years ago, so I'm selling it because I =  
just don't use it. Nice example of Ameco receivers. Sold as is. \$75 =  
plus shipping and insurance

>=20

> Hallicrafters HA-1 TO Keyer: fair condition, not bad, original =  
Hallicrafters marked tubes, original knobs, never used, sold as-is: =  
\$30 plus shipping and insurance

>=20

> Swan 250 six meter transceiver + 117XC matching power supply/speaker, =  
original manual, original knobs, no modifications that I know of. XCVR =  
and PS are in good condition. Last used on 6 meters 10 years ago and I =  
had alot of fun with it. Sold as-is. \$200 plus shipping and insurance

>=20

> Beautiful Swan 250C six meter transceiver + rare Noise Blanker + 117XC =  
matching power supply/speaker, original manual, original knobs, no =  
modifications that I know of. XCVR and PS are in very good condition, =  
clean, shiny, last used 10 years ago. Boy how time flies. Sold as-is. =  
\$300 plus shipping and insurance

>=20

> Eico Seven Drifty Three (753) SSB/CW transceiver and matching power =  
supply/speaker. Good condition, nice looking, no unauthorized =  
modifications that I know of, a ton of assembly information, schematic =  
diagrams, assembly drawings, updates and addendums to resolve some of =  
the funky design problems. The only distraction is the original =  
aluminum knobs, the flat surface, has some kind of corrosion or mottled =  
surface. Last time I used this was 2 years ago. It was fun to use on =  
20 meters. \$125 plus shipping and insurance.=20

>=20

> Hallicrafters SR-150 10-80 meter transceiver, good physical condition, =  
original knobs, no modifications that I know of. I never used it. I =  
bought it without a power supply and I never got around to buying a =  
matching power supply: \$180 plus shipping and insurance

>=20

> National NC-183D plus matching speaker: good condition, all original = knobs, clean, original manual, previous owner installed plug in product = detector into audio amp socket, previous owner started to replace = speaker grill cloth but didn't finish, new cloth in there but not = complete. Prefer local pickup (Saint Paul Minn) on this baby but we can = talk. \$300=20

>=20

> Knightkit Receiver #1: Similar to R100, I don't know the model number = but its the same size and tube lineup as the R100, same controls and = placement, just the knob type is flatter and the S'meter opening is = rectangular. Original knobs, no modifications that I know of, includes = S-meter. I plugged it in on Saturday and spent some time listening to = 20 and 40 meter cw and SSB. Nice sounding radio, stable enough for = pleasant QSO's, very nice physical condition. Sold as-is \$55 plus = shipping and insurance

>=20

> Knightkit Receiver #2: Same as #1, Similar to R100, I don't know the = model number but its the same size and tube lineup as the R100, same = controls and placement, same everything except the knob type is flatter = and the S'meter opening is rectangular. Original knobs, no = modifications that I know of. Look like cabinet was powder coated, = looks nice, only distraction is that original knobs are discolored or = faded. Cabinet screws missing. I've never powered this one up. \$40 = plus shipping and insurance

>=20

> Hallicrafters S-38D. Fair condition, original knobs, some dings, = scratches, looks complete, someone added an S0-239 coax connector to the = cardboard back. I've never turned this radio on. Sold as-is. \$30 plus = shipping and insurance

I'm still a sucker for LMs, '221s, GDOs and related "stuff"...Always surprised and pleased with the accuracy and fun of the sets. Good luck finding a buyer, and if not, you still have some neat stuff to play with.

Another interesting thing! The VERY common . ... or "es" used to indicate the word 'and' is actually an ampersand (&) in American (wireline) Morse! The commonly used double length dash or LONG dash used for the number zero is also stolen from American Morse! There might be other things I don't know about, but that is where these came from.

I am attempting to learn American Morse, just for the fun of it. Should be interesting to converse in landline Morse on the air

and make people wonder "what code" we are using!

73,

Sandy W5TVW

Subject: Re: For the first time in anyone's memory.

| Hi Al & Gang,

| Re: Early Morse Codes....

| First, the distress signal is not "S-O-S" and does not mean, "Save Our Ship"!!!!

| The signal is: didididahdahdididit ...---... , ONE CHARACTER, NOT SEPARATE LETTERS S O S !

| For the information of the person who is active in the Internal Morse Preservation Society, There was a character for "exclamation point" many years ago....It was, dahdahdididahdah, --...-- which was changed to be the comma....There is no character for exclamation point any longer.... The punctuation mark "period" was, believe it or not, iii, yes, the letter i sent three times as one group or word....This signal was deleted.... The "comma" was didahdidahdidah, .-.-.- which was changed to be the period....

	WAS	NOW IS
period	iii	.-.-.-
comma	.-.-.-	---...--
exclam.	--...--	none
pt.		

| I'll be telling you my age if I don't shut up!!!!

| Take care and "Viva La CW",

| Ken....N5CM....

Ladies and Gentlemen,

If you have a new or used but good 7027 or two 7027A's to sell please let me know what you have and what you are asking for them.

These are for an amplifier in which one of the two 7027A push-pull output tubes is bad (gassy with a blue glow), and the other (good) output tube is a 7027, not a 7027A as it's supposed to be. I am planning to sell this amp after it is whole again, so I don't want to put a lot of cash into it.

Thanks.

-Al Schapira, KC2HRH, a.d.schapira@worldnet.att.net

(Mandatory radio content: 7027A's were also used as modulators in the Ranger II.)

I have the following items for sale that are excess to my needs. Prices do not include shipping. I will ship overseas.

Nye Viking Phone Patch.....\$25 plus shipping

Working unit in excellent condition with cables.

[http://members.cox.net/radiostuff9/viking\\_patch.jpg](http://members.cox.net/radiostuff9/viking_patch.jpg)

3 Sets of Eimac JAN 7293 4CX250 plus socket and Eimac SK-606

Chimney.....\$100 for the three plus shipping

The tubes and chimneys appear to be NOS. Sockets are used.

<http://members.cox.net/radiostuff9/4cx250.jpg>

<http://members.cox.net/radiostuff9/4cx2502.jpg>

Heathkit Electronic Switch Model S-2 .....\$25 plus shipping

This is in excellent condition cosmetically, works and includes original manual.

[http://members.cox.net/radiostuff9/heath\\_switch.jpg](http://members.cox.net/radiostuff9/heath_switch.jpg)

Heathkit QM-1 Q-Meter.....\$75 plus shipping  
Rare Heathkit QM-1 Q-Meter. This unit is from around 1952. This instrument is for working with resonance circuits to determine L and C and frequency. The unit works and includes a copy of the manual.  
<http://members.cox.net/radiostuff9/heathqm1.jpg>  
<http://members.cox.net/radiostuff9/heathqm12.jpg>

Lafayette HB-76 VHF Receiver.....\$35 plus shipping  
This is a VHF receiver from the 1960's that covers 152-174 MHz. The unit is in excellent condition cosmetically and does work.

Subject: FS: NOS Heathkit Manuals and Other Literature

Content-Type: text/plain; charset=us-ascii; x-mac-type="54455854"; x-mac-creator="4D4F5353"

Content-Transfer-Encoding: 7bit

I found a stack of NOS manuals that appear to have been purchased without the kit as none have the check marks for assembling the item. Finding an unmarked manual is rare unless you happen to come across an unbuilt kit. Prices do not include shipping.

I will ship overseas.

Heathkit RX-1 Mohawk Receiver Manual - NOS.....\$75  
plus shipping

Insides are excellent and the 10 foldout drawings are there. The back cover has a small stain in the lower left hand corner and a bit of shop ware. Date on manual is 1959.

[http://members.cox.net/radiostuff9/heath\\_mohawk.jpg](http://members.cox.net/radiostuff9/heath_mohawk.jpg)

Hi,

One that you can hear sometimes is \_ \_ . \_ \_ for =F1 as in espa=F1ol.

The first time I heard it, it went straight through me without registerin=  
g  
the combination of dahs and dits, but I knew from the context that it was=  
an =F1. I had to call the station that sent it to ask how he sent it. I=  
t  
was back in the days of the Elian Gonzalez saga, when a Cuban station was=  
broadcasting "Free Elian" messages, and a W4 of HI3 origin called him to  
debate whether it was an appopriate use of amateur radio. =

73, Rob K2WI
